Create cleaner homes on a greener earth

01 Reuse recycled materials

With sustainability in mind, EZVIZ uses recycled materials – an amount that equals about 16 plastic water bottles – on the RE4 Plus's back plate, helping reduce plastic pollution and give used materials a second life.

02 Grow greenness with the RE4 Plus

With revenues from the RE4 Plus, EZVIZ is giving back to the planet - planting trees and empowering local farms via our dedicated EZVIZ Global Forest Plan. On average, we plant two trees a day with our green partner Treadom, a global leading tree-planting platform.
